“Our agent was tremendous! She was very organized and an excellent communicator. She was incredibly responsive and accessible and kept the process moving smoothly. She made everything very easy and her connections within the community allowed us to close quickly. Throughout the time we worked with her, she showed us that she cared about us and our experience in the home buying process. We’d recommend her to anybody, especially first-time home buyers, like us! Need we say more?!”

“Our agent provided phenomenal service to us. We probably would not have purchased a home this year if not for her outstanding assistance, knowledge and service. She repeatedly surpassed our expectations through timely communication, suggestions for local resources, and support even after the sale. We loved her! Thank you for such fabulous support for our international move!”

“Our agent understands the South Bend area extremely well. We were brand new in town and she explained the various neighborhoods and the pros and cons of each. Every home she showed us was the style we were looking for and within our budget. She was instrumental in our offer and closing process and we would not have our beautiful home without her.”
